Dear Parents and Guardians

The end of Term 3 is fast approaching. Year 12 students are starting to prepare for the September practice exams. The feedback they receive from these exams will help them to more effectively prepare for the final exams commencing at the end of October.

Naplan

We have just been informed that there has been an issue with the printing of the Naplan reports that are sent to parents. They will not be available until the beginning of Term 4. Be assured that as soon as they arrive in the school they will be posted home.

Literacy and Numeracy

The College has been recently recognised for the excellent results we have achieved in the area of Literacy and Numeracy growth over the past few years. An article outlining the study we are involved in was published in the Herald Sun. The excellent results we have achieved in these areas are due to the hard work and dedication of the teaching staff.

Parent Teacher Interviews

Tuesday the 3rd of September saw the Term 3 Parent Teacher interviews. Thank you to all the parents and guardians who were able to attend. The partnership between teachers and parents is a powerful one in supporting students to achieve their full potential. If you were unable to attend for any reason and would like some feedback on how your child is progressing, please make contact with your child’s Year Level Coordinator.

Mt Macedon

In August, all of our Year 7 students participated in an excursion to Mt Macedon. This excursion supported their work in Integrated Studies. An enjoyable day was had by all. Congratulations to the Year 7 Integrated studies staff for their organisation of this day.

Beacon Bonanza

All Year 10 students participated in our annual Beacon Bonanza Day. Students were able to speak to people from a range of occupations as part of the ‘Speed Careering’ session. Another session focused on ‘Work Readiness’, and there was also a motivational speaker. Congratulations to the Beacon Ambassadors, Louise Bryant and the Middle Sub School for their work organising this day.

Science Mural Opening

On Friday 30th August we hosted the official opening of the Science Mural in the Science Centre. There was a wonderful turnout of staff, parents, students and community members who enjoyed a light afternoon tea as they listened to speeches from the artist, Robert Jackson, student leaders Victoria Obieiglo and Johnny Radas, and staff members Marion Mortimer and Nick D’Aglas. The mural is a great addition to the College, and is a reminder to all students of the historical link between art and science.

Main Road East St Albans Victoria 3021 Telephone (+613) 9366 2555 Email st.albans.sc@edumail.vic.gov.au  www.stalbanssc.vic.edu.au

Athletics

Congratulations to Mr Robert Lakovski and the students who participated in the Keilor District Athletics sports. In our best showing for a number of years we finished 3\textsuperscript{rd} overall, winning the boys section. 23 students have qualified to compete at the Western zone finals. Well done to all those who competed!

Thank you

I would like to take this opportunity to thank the teachers who have worked here this term, taking the classes of staff who have been on leave. These staff members were Ms Vandana Rana, Ms Varinder Kaur, Ms Judith Simpson and Ms Natascha Moody. We wish them well. I would also like to take the opportunity to thank the school community for their support of me as I have undertaken the role of Acting Principal this term. I have found the role to be challenging and enjoyable. With Ms Kerrie Dowsley returning next term, the Principal team will return to its original composition from Term 1. I would like to personally thank Ms Mary Adamou for all the work she has done during Term 2 and 3 as Acting Assistant Principal.

I hope all students and staff have a relaxing, well-earned break.

Craig Jennings
Acting Principal

Stellar improvers in the classroom

Primary
- Knox Gardens Primary School, Werribee South
- Eaton Primary School
- Ocean Grove Primary School
- Waterdale Primary School
- Greyleigh Primary School

Secondary
- Werribee College, Delacombe
- Barwon Springs Secondary College, Delacombe
- Albion College
- Taralga High School
- inner Central Secondary College, Branston Drive

Stellar improvers, like Principal Tracy Rinfret, whose school is part of the student and staff development program, have been working at improving the classroom experience for students and teachers. The program is aimed at improving student engagement and achievement. Teachers have been working hard to implement new teaching strategies and improve student outcomes. Principal Tracy Rinfret said the school has seen a noticeable improvement in student performance. She attributed the success to the dedication of teachers and the support of the school community. "It is a great feeling to see the students achieving and making improvements," Principal Tracy Rinfret said. "We are working hard to ensure that every student has the opportunity to succeed."

Fik-Shun - Year 8 Band

Hello, we are the Year 8 band Fik-Shun. Our band contains 4 members – Dominic Lay (Drums), Anne Rivera (Vocals), Christine Tran (Bass) and Hao Lu (Keys).

“Even though we were put together last year, it feels like we have been together for longer” – Anne.

“Performing is great, well after we perform because we are always nervous before performing. The good thing is afterwards we want to do it again”. – Dominic

“It's a great experience. Mostly because it's a new experience”. – Hao

“Being in a band is really beneficial, not only is it fun, but we get to record our song covers and perform in assemblies”. – Christine

“Overall, our band has learnt a couple of songs but we hope to increase the numbers in the days to come”

By Fik-Shun

Robotics Year 10

Robotics class is about building and programming robots using LEGO Mindstorm. We test the robots program with trial and error to logically solve a problem. In this class we also learn to build and design our own robots in which we make the program ourselves.

We learnt to use the lego NXT programming environment to program and read values off sensors from the robot. While programming the robot we also learn how the program works in a logical order.

The best thing about robotics class is that I can relive my childhood playing with lego but be able to do extraordinary things with a simple to understand programming languages.

Hi my name is Tuan Lai and I am doing Robotics in year 10. Robotics is a very interesting and fun subject as we program and build robots and make them do interesting things with the program. This subject involves teamwork, effort and organisation skills as things all have to be in place to make it easier to find pieces. This subject teaches us how to build and program our own robot. The best part of this subject in my opinion is the fact that we get to build and program our own robot to however we wish.

My name is Kevin and I do year 10 Robotics. This subject is all about teamwork, organisation and sometimes individual skill. We get to learn how to make our own robot by putting little parts together and working in a group to build it. The best part about this subject is you actually work together to build our own robot, finding all the little parts and connecting it to the right places, this is a very enjoyable class.

Sports Report

Year 7 Boys Basketball
The boys trained for 7 weeks every morning before school during the coldest months of the year. Their developing fitness, skills and abilities were only matched by their dedication and commitment.

On Tuesday August 27 we played against our local schools. In the first game we trounced KDC. The first 10 minutes was very close but our accuracy and good play ensured we had a great lead by the 20 minute mark. We gave a valuable run to our other players and although KDC came back, we weren't seriously challenged. In our second game against Copperfield KP we lead from the start and never looked back.

In the final against Taylors Lake although they were a tougher opponent we continued the great aspects of our play and didn’t give them a look in. Buku was the player of the day and his second and third efforts were amazing. Isaac F, Isaac C, Phong, Aron and Samson – their consistent support wore our opponents down. Joseph’s steals wrong footed our opponents on their attacks and broke their confidence. Talhah, Simon and Jimmy put in worthy efforts with little game time. David didn’t get a run but ably supported the team using the scoreboard. We dedicated our win to teammate John who unfortunately was injured the day before.

Science Centre Mural Launch - by Marion Mortimer

The wonders of science feature in the mural created by Albion artist Robert Jackson, and the 20 metre long artwork holds pride of place in the new St Albans Secondary College Science Centre building. Robert Jackson spent around six months working on the science mural at the Keilor Art Shed, as part of the Brimbank Council’s Art Spaces Project.

The science mural was officially launched by Mr Peter Lewinsky, Brimbank City Council Administrator on Friday 30th August 2013.

Year 12 VCAL students, Dylan Decouto, David Pavlidis and Steven Wolf did an outstanding job catering for this event and made VCAL Co-ordinator, Ms Marlene Cassar proud.

Acknowledgements
Robert Jackson – the mural is a celebration of artistic and scientific achievements, providing knowledge and inspiring imagination in our Junior School students.

The Funding Body – we give thanks for philanthropic people.

Nicholas D’Aglas – whom St Albans Secondary College is indebted to for his entrepreneurial flair.

Marion Mortimer, for enthusiasm and encouragement.

Lynne Borle, Science Co-ordinator for her on-going support and organisation of the science mural launch.

The entire science department for their input.

Brad Klooger and Jim Borle for the fastening system.

Brian Davies from Cavalier Art Supplies for the materials.

Brimbank City Council Arts and Culture Dept. In particular Toni Burton. They provided the Keilor Art Shed where the mural was painted.

Robert Jackson concluded his Science Mural launch speech with a quote from quantum physicist, Erwin Schrodinger:

“I am very astonished that the scientific picture of the real world around me is very deficient. It gives a lot of factual information, puts all our experience in a magnificently consistent order, but it is ghastly silent about all and sundry that is really near to our heart, that really matters to us. It cannot tell us a word about red and blue, bitter and sweet, physical pain and physical delight; it knows nothing of beautiful and ugly, good or bad, God and eternity”.

Science Centre Mural Launch - by Marion Mortimer
Beacon Bonanza

On Friday 23rd August, Year 10 students participated in a range of exciting activities as part of the annual Beacon Bonanza Day, including ‘Speed Careering’ and ‘Ready to Work’. This program was led by Beacon Ambassadors Joshua Aghan, Anna Hijazeen, Hoa Nguyen and Brigitte Thomas.

Students met people from a diverse range of professional backgrounds and were able to discuss career and educational pathways. Students also participated in workshops led by Year 12 VCAL students Bonsa Dawe and Mohamed Ismael. This provided students with valuable job seeking skills. Travis Demsey, drummer from the award winning Australian rock band The Living End, presented an exciting and entertaining motivational speech and music workshop.

On behalf of the Beacon team I would like to thank students and staff for their enthusiastic participation in the Beacon Bonanza.

Louise Bryant
Middle Sub School Co-ordinator

Lady Northcote Recreation YMCA Camp

The latest Year 9 ADVANCE adventure was held at the Lady Northcote Recreation Camp at Bacchus Marsh. The intrepid students along with Ms Martimer and Mr Micallef were challenged to “get out of their comfort zone” by exciting activities run by the YMCA Outdoor Education Instructors. We had a great time and the class was impressive – supporting, encouraging and caring for their friends.

Here’s some camp reviews:

Renae M and I teamed up together for the orienteering course and after running around like crazy people we won. We then had the flying fox, which to be honest at first was a little intimidating, but as I watched my class mates enjoying themselves – I decided I had nothing to worry about. Other fun activities were the giant swing, high ropes, damper making and archery. I really enjoyed this camp as the activities really challenged everyone and we all had to work together to succeed. ... But the thing that I loved most, was getting to bond more with all of the people in our class. Renae WILKE 9A

I enjoyed the mountain bike riding and giant swing because it gave me an adrenaline rush. Viet TRAN 9C

For the Survivor Challenge we learnt how to make damper (bread) – it required patience, which gave us time to have a “chat” together. I also enjoyed the Initiatives Course as we had to work as a team to achieve the tasks. Konelio VITAE 9D

The high ropes course was really scary for me, as I was terrified of heights. Climbing to the course was really hard but I eventually went up there – and succeeded. It was a terrifying experience yet full of adrenaline. I had overcome my fears. Cindy HUYNH 9E

I was really excited that we were going to do archery – as I love archery but I can’t really aim properly. For the first two rounds I was terrible, but after that I improved and stuck the balloon twice. Kerri TRAN 9E

Over this whole camp experience I saw myself doing things I thought I would never do. For example, the high ropes course. I was actually pretty eager, but it was so scary reaching the top, the fact that I actually completed it without falling was such a great accomplishment for me. It helped me get out of my comfort zone a little bit and I am so happy for that. ... The camp made me closer to people I thought I would never be close to - the girls and boys truly made this camp experience truly amazing. Renae MANIAPOTO 9B
What’s been happening at SASC…. Continued

LOTE Japanese Speech Contest 2013

On Sunday the 25th of August Song Tinh Le of Year 10 and Isabelle Bouttaveth of Year 7 competed in the Japanese Language Teachers Association of Victoria’s annual Japanese speech contest. Students were required to recite a set Japanese speech from memory using their best Japanese pronunciation and intonation. They were then asked to perform another short speech of their own without notes. Our students were among the top secondary school Japanese students of Victoria and we are extremely proud of their fine performances in this very nerve-racking and gruelling event. We would also like to recognise Jaedyn Azzopardi of Year 8 and Kevin Ma of Year 7 for successfully competing in our school finals as well. Well done!

Ms Angela Nolan
Teacher of Japanese and EAL

The 8th Annual Year 7 Mathematical Challenge Day at Taylors Lakes

‘On Thursday 29th August, 4 teams of Year 7 students were nominated to participate in the Year 7 Maths Challenge day which was held at Taylors Lakes Secondary College. There were 4 schools in attendance; St Albans, Taylors Lake, Copperfield Sydenham and Kings Park.

The St Albans team consists of:
A: Brendan Nguyen, Kathy Tran, Christine Nghiem and Vinh Nguyen.
B: Ted Lee, Phillip Le, Long Huo and John Nguyen.
C: William Hoang, Gaven Lay, Julie Vo and Tina Huynh.
D: Tina Wen, Anna Nguyen, Julie Lu and Katherine Min.

It was a fun and challenging day; students completed lots of strategic questions and were put under pressure together to work in a team environment to solve different mathematical problems. All the students who participated on the day had a real go and gave it their best efforts to collect points for their teams. At the end, St Albans Secondary College came second overall. Also the 2013 year 7 mathematical team broke the record for having the highest amount of points since the competition started back in 2005. Well done guys you did the school proud, we should all give them a pat on the back’.

Mr Steven Vo
Mathematics Teacher
Junior School Report

The Junior School has been very productive over the last few weeks. Students have been involved in many events.

Year 7 and 8 students attended a fantastic performance by the Police Band in Performing Arts. They were entertained by members who performed on a number of instruments and to singers who sang great Pop songs which highly entertained the students. A number of teachers came along to support the event and enjoyed the performance also. Congratulations to Debra Gaye who was invited to get up on stage and perform with the Police Band and she sang extremely well. Well done!

Parent Teacher Interviews were well attended and students and parents received feedback. It was nice to meet with families of our students and discuss their child’s progress.

Year 7 Students attended Mt Macedon last week and the weather was superb. Thank you to all staff involved. The students had an enjoyable and educational day.

Ms. Phyland’s “Bean Bag Tournament” is nearing the finals.... 8 H will be playing 8F and 8C will be playing 8E for their berths in the finals. Students are enthusiastic to compete and the competition is fierce.

Congratulations to our Students of the Month. A canteen voucher and certificate was awarded for their politeness and helpfulness to staff and in the classroom in general.

July – Khang Vo 7E
August - Brendan Nguyen – 7B

Year 8 Students are reminded to return their Permission notes and money to the Front Office for the Brimbank Walk and Graduation Dance.

The Talent Quest has many participants from the Junior School. Good Luck- it is pleasing to see so many of our students involved in performing. Thanks to VCAL for organising a great competition.

Mr Les Chapman - Sub School Leader
7E, 8I, 8J
Ms Lauren Honeycombe - Assistant Sub School Leader
7A, 8A, 8E
Mr Loue Traianou - Sub School Coordinator
7B, 7D, 8B, 8D
Ms Laura Gough - Sub School Coordinator
7C, 7G, 8C, 8G
Ms Di Phyland - Sub School Coordinator

11D (T-Z), 12D (T-Z), 12 VCAL
Ms Rosemary Bambery - Sub School Assistant
7A Philosophy Excursion

“Our class went on an excursion to the Melbourne Museum, hoping to learn more about the body and the mind. We met our distant education teachers for the first time on the day. We wandered around the museum and learned new facts about the minds of people and how it works.

The best part of the day was when we had a debate about whether Earth should be destroyed or be spared from the aliens called Vogons. It was a very interesting discussion, listening to others argue their point of view, since it required very much thought. We also met new people from other schools, as they were doing the course as well. It was a great, fun and a very rewarding day, as we came out with more knowledge and questions about ourselves and the universe.”

By Andy Du and Joe Hew

“I really liked the debate on whether Earth should be destroyed or saved from the aliens called Vogons. I thought that the discussion was interesting and entertaining because everyone had to voice their view and explain why. I also liked the game ‘True or False’ at the beginning of the session because it helped open up my mind and ‘break the ice.’

During our excursion, we were expected to do some philosophy work so we were divided into teams to work in. We had to answer questions about the mind and the body, and we also learned about different types of questions; imaginative, philosophical, research and quiz.”

By Ling

“In our philosophy courses, we learn about different ways of thinking and arguing with reason. The excursion to the Melbourne Museum was quite interesting and enjoyable. We talked about the differences between the mind and the brain and many questions were posed throughout the day.”

By Shirley 7A
Middle School Report

It has been a busy term for Year 9 and 10 students, with many excursions and activities run to support student learning.

Year 9 students have enjoyed writing workshops in their English lessons run by published authors, Music and Science performances, and LOTE excursions to the city. Students studying Advance have been on camp in order to achieve their Duke of Edinburgh Bronze Award.

A number of Middle School students represented the school at the Athletics Carnival on Friday 30th August, and we congratulate them for their successful performances.

Year 10 students all took part in the Beacon Bonanza Day organized by Ms Bryant and the Beacon Ambassador students. The day was a great success and I’d like to thank the Beacon team for their hard work in the lead up to the event. There have also been a number of excursions for students studying Law, Business Management, Drive and Survive and LOTE subjects. On Tuesday 10th September, Year 10 students will enjoy a performance of Romeo and Juliet presented by a visiting drama company.

A reminder to parents that the school policy on mobile phones states that if students wish to bring them to school, they must be turned off and left in lockers all day. Students who are seen using a mobile phone during the school day will have phones confiscated and parents will be asked to collect them from the general office at the end of the school day. We thank you in advance for your support.

I would like to thank Ms Sandy Fraser for her work in the sub school this term, and for the time, effort and kindness she has shown to all the students she has worked with. On behalf of the Middle School team, I would like to wish all students and their families a restful break over the holidays. We look forward to seeing you all back in Term 4.

Ms Becky Annetts
Acting Middle Sub School Leader

Yr 10 Robotics Class - Report on page 3
Senior School Report

We are now at the conclusion of what has been a very busy and eventful Term 3! Term 3 has seen a variety of events including:

• Students Forums for Years 11 and 12
• A variety of guest speakers at assemblies and other events
• Reports from our scholarship winners – both Year 11 and Alumni students
• 2014 scholarships information for the Year 12s
• Several students leadership programs for Year 11s
• Mid-Year Reports for Year 12
• Parent Teacher Interviews
• A variety of Enrichment Programs for Year 12 students.

At the start of Term 3, the Senior School ran student forums for our Year 11 and 12 students to seek student feedback on a variety of aspects of school life, and to consider additional ways in which we can support the students to enhance their overall experience at the school. The feedback from these forums has been collated and we have had some very positive comments as well as information to plan further activities for the students.

Year 12 Reports were mailed out to parents in Week 4 this Term, so that parents, students and teachers could take stock of how students were progressing. These reports were then followed up with our Parent Teacher Interviews during Week 8, which were well attended and very productive.

Our last Assemblies for Term 3 Senior School featured guest presenters addressing the students regarding scholarship programs. Ms Jenny Devereaux from the Education Department spoke to the Year 12 cohort on Scholarships that they can apply for, at a variety of institutions including universities and TAFE colleges. Our alumni Dafyyd Lewis scholarship holders, Wayne Thai & Giang Nguyen, spoke to both the Year 11 and 12 cohorts about how they obtained their scholarships and their subsequent experiences as undergraduate students at the University of Melbourne. It was wonderful to have these young people come back to the school and show others what is possible to achieve with hard work and dedication.

Other scholarship winners spoke at assemblies about their experiences. Demi Tran made a presentation to the Year 11s about her recent Arts Scholarship to Trinity College, University of Melbourne. Loy Singebhuyhe spoke about her experience in Sydney at the prestigious UBS Finance Academy Scholarship. Both girls were so impressive in the way they talked about meeting other participants - some of whom came from different countries – and what these opportunities had given them. Our SRC students also spoke to both Year 11 and 12 assemblies about the upcoming “Are you OK” Day, raising awareness of mental health issues and the support structures that are available to help.

On Wednesday 21st August we had the launch of the ABCN “Aspirations” Program for Year 11 students. This Mentor program is the second ABCN program Senior School had run this year. The Program which is supported by staff at Goldman Sachs, aims to develop direction, resilience and leadership in our students. Sixteen students will participate in this program over 4 weeks, and members of our team will accompany them into the city offices of Goldman Sachs for their mentoring sessions. Mentoring programs of this nature aim to build on the principles of Positive Psychology. “Positive Psychology” is the work of world leading psychologist and expert team will accompany them into the city offices of Goldman Sachs for their mentoring sessions. Mentoring programs of this nature aim to build on the principles of Positive Psychology. “Positive Psychology” is the work of world leading psychologist and expert adviser on wellbeing at the highest level of international public policy, Professor Martin Seligman. Seligman believes that happiness is not the result of good genes or luck. It comes from focusing on personal strengths rather than weaknesses and working with them to improve all aspects of your life. We look forward to hearing the feedback from this group about their experiences over the coming weeks.

Ms Sonja Carras addressed both our Year 11 and 12 cohorts when she gave her “Whole New World” presentation in August. Sonja presents an amazing one-woman show, using a combination of humour, shocking factual case studies and factual information about current laws, to completely engross her audience for a double period. Sonja’s presentation on staying safe while partying was very productive.

Enrichment programs have been running for Year 12 students in English, Specialist Mathematics, Health and Human Development, Business and Accounting. The September Exam Timetable for St Albans SC is now available from the School Office. The September Exam Timetable has been constructed so that our students can also attend the Victoria University Free VCE Revision Lectures, which are given by outstanding presenter and are extremely valuable. The full end-of-year VCAA exam timetable for Year 12 exams can be viewed on the VCAA website through the following link: www.vcaa.vic.edu.au/Pages/vce/exams/timetable.aspx.

The VCAA VCE Exam Navigator has been distributed to Year 12 students (and Year 11 students doing a Unit 3&4 sequence). This is a very important document for students, as it outlines the rules under which the VCE exams are to be conducted. It also states clearly what students may or may not take with them into their examinations. A pdf copy of the exam navigator from the VCAA website at the following address: http://www.vcaa.vic.edu.au/Documents/vcaanavigator_web.pdf.

Many thanks to the parents who contact us when their child is absent for any reason. This is of great assistance to the Year Level Coordinators, as we will call home regularly if there are any unexplained absences for your child. The Case Management process continues to monitor closely the attendance, achievement and individual needs of all our students. Please contact us on 9366. 2555 if you have any queries or concerns about the progress of your child.

Julie Bird
Senior Sub-School Leader
From the General Office

College Expectations –

Punctuality, Attendance, Uniform

We greatly appreciate the support we receive from parents to make sure that your child attends school regularly & punctually, in full uniform, and is well prepared for all classes with books and equipment.

Some important expectations are outlined below:

Being prepared for classes

It is expected that students have the required books & equipment for each subject, as well as a student diary to record homework & assignments.

If you need any assistance with ordering books, please contact the General Office.

Punctuality

Is expected at the start of each day & for all classes. Any student who is late more than 4 times will have a Friday detention from 3.20pm to 5.20pm. The first Friday detention will be held on Friday 22 February.

The consequences for lateness to school are as follows:

1st Late - Coordinator Interview with student
2nd Late - After School Detention 3.15pm - 3.45pm

Attendance

Students must have a minimum of 90% attendance in all classes at each year level.

Uniform

Full uniform must be worn to and from school, at school and on all school excursions, including interschool sports.

Please note:

- Only the 3 approved styles of school shoes are to be worn
- PE / Sports shoes must be lace up runners with non-marking soles
- Facial piercings are not to be worn at school
- Make-up is to be kept to a minimum.

Parents & Friends Association

Thank you to all the parents, students and staff who returned the Woolworths Earn and Learn stickers. We have had our tally of 2160 stickers confirmed and our Librarian, Ms Jo Harris has completed our order of some lovely books for our library. We now anxiously await there delivery.

We will be conducting our annual Christmas raffle shortly and tickets will again be available for purchase through class captains, the canteen and the general office. We again have been fortunate enough to have some great prizes on offer. Your support of this raffle will enable the school to make some refurbishments to our school camp at Strathbogie. More details shortly.

For any further information about Parents and Friends please contact Maree Wilke on 9366 2555 between 8.30a.m and 2.30pm.

Ms Maree Wilke
Parents & Friends Coordinator

Parent Morning Tea

An invitation is extended to parents to attend for a short presentation and discussion focusing on health and safety issues that confront young people today.

Young people today have to face many challenges not experienced by past generations. The morning tea planned for this term will provide an opportunity to discuss some of these issues. And hear about some of the services available to support young people in ensuring they remain safe and supported. Ms Nicky Collins-Smith, our Health Education Nurse will present a short session, with an opportunity for discussion to follow.

When: Thursday 19th September, 2013    10.30-11.30am.
Where: Conference Room, St. Albans Secondary College.
RSVP to general office by Monday 16th September, 2013 for catering purposes.

For further information contact please contact me on 9366 2555.

Ms Mary Adamou
Acting Assistant Principal
Catching the train to school in Term four?

Between Thursday 3 October and Sunday 13 October 2013, buses and coaches will replace trains on parts of the Sunbury, Ballarat and Bendigo lines.

Sunbury Line: Trains will not be operating between Albion and Footscray.

Ballarat Line: Trains will not be operating between Ballarat and Southern Cross Station

Bendigo Line: Trains will not be operating between Sunbury and Southern Cross Station

This will enable essential construction works for the Regional Rail Link project – a new rail line that will run from West Werribee Junction to Deer Park, then along the existing rail corridor from Sunshine to Southern Cross Station.

Students are advised to plan ahead and allow extra time for their journey. Travel times may be extended by up to 35 minutes on the Sunbury line, up to 45 minutes on the Ballarat line and up to 60 minutes on the Bendigo line.

Further information about travelling during this period, including bus replacement timetables, will be available from Public Transport Victoria (PTV) in the coming weeks at www.ptv.vic.gov.au or by calling 1800 800 007 6am-midnight daily.
